

Concentrated Alkali

Concentrated Laundry Alkali, Non-Phosphated

Product Number 4182

Description

A heavy duty, liquid alkali designed to provide the highest boost per ounce than regular alkali solutions. Perfect for use in washing rags, table linens, smocks/aprons, uniforms and bed pads. Designed for use in soft to medium water hardness. Formulated for easier rinsing.

Directions

Designed only for use in the ConQuest system. Our easy to handle container is designed to eliminate the difficulties associated with the handling of heavy pails and drums.

Slide the lever to "Open" on the ConQuest rack. Remove empty container from rack and dispose of properly. Secure the desired replacement container from storage. Remove shipping cap from container. Place container into a properly marked ConQuest rack, making sure that product is placed into the correct slot. Push gently so that the product container engages the top portion of rack and that it will not move any further. Slide lever to "Close". Product is now ready to dispense.

Your service representative will set the concentration to match your needs. Typical usage is 1 – 4 oz. per 50 pound load.

Technical Data

Form	Liquid	Rinsability.....	Excellent
Color	Clear, Brown	Foam.....	Low
Scent.....	N/A	Density.....	12.5 lbs./gallon
pH (1% solution)	12.5
