

Detergent/Emulsifier

Concentrated Detergent/Emulsifier

Product Number 4188

Description

A liquid emulsifier to be used on all classes of laundry work for the better removal of most stains. Highly effective on greasy, oily soils such as butter stains, salad dressings, make-up, collars/cuffs, and shop towels. Can be added to the break operation with an alkali or used as a pre-spotter or pre-spray. Can be used in warm water or hot water without a loss in performance. Helps reduce the amount of detergent used to break up tough soils and stains. Highly concentrated to reduce excess plastic/packaging.

Directions

Designed only for use in the ConQuest system. Our easy to handle container is designed to eliminate the difficulties associated with the handling of heavy pails and drums.

Slide the lever to "Open" on the ConQuest rack. Remove empty container from rack and dispose of properly. Secure the desired replacement container from storage. Remove shipping cap from container. Place container into a properly marked ConQuest rack, making sure that product is placed into the correct slot. Push gently so that the product container engages the top portion of rack and that it will not move any further. Slide lever to "Close". Product is now ready to dispense.

Your service representative will set the concentration to match your needs. Typical usage is 1 – 2 ounces per 50 pound load.

Technical Data

Form.....	Liquid	Biodegradable.....	Yes
Color	Clear Green	pH.....	Neutral
Scent.....	Pleasant	Viscosity	Medium
Solubility.....	Excellent	Density	8.2 lbs./gallon
