Low Temp Liquid Chlorine Sanitizer

Product Number 4215

Description

A concentrated, chlorine sanitizer for sanitizing freshly cleaned dishes in a commercial dish machine. Our system helps to minimize your delivery and inventory costs as well as storage space.

Directions

Designed only for use in the ConQuest system. Our easy to handle container is designed to eliminate the difficulties associated with the handling of heavy pails and drums.

Slide the lever to "Open" on the ConQuest rack. Remove empty container from rack and dispose of properly. Secure the desired replacement container from storage. Remove shipping cap from container. Place container into a properly marked ConQuest rack, making sure that product is placed into the correct slot. Push gently so that the product container engages the top portion of rack and that it will not move any further. Slide lever to "Close". Product is now ready to dispense.

Your service representative will set the concentration to satisfy local requirements for sanitizing.

Technical Data

Color	Clear, Yellow	pH (1% solution).....	9.0 - 11.0
Odor.....	Chlorine	Viscosity	Medium

Product Category: Warewash/Mechanical Washing

DOT Shipping Name: HYPOCHLORITE SOLUTION, 5-16% AVAILABLE CHLORINE, 8, UN1791, III

EPA REG NO. 550-198-58880 / **EPA EST. NO.** 58880-GA-1

Cautions

DANGER: Corrosive. May cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

STRONG OXIDIZING AGENT: Mix only with water according label instructions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas, which is irritating to eyes, lungs, and mucous membranes. **If inhaled:** Move exposed person to fresh air. If person is not breathing, call 911 or an ambulance, and then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **If on skin or clothing:** Take off all contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. **If in eyes:** Hold eyes open and rinse slowly and gently with plenty of water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice. **If swallowed:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by poison control center or a doctor.
