## Powdered Flatware Presoak and Silver Detarnisher

Product Number 4430

### Description

A unique powdered product designed for presoaking and de-tarnishing. Helps to soften and solubilize foods soils and allow for proper mechanical cleaning. De-tarnishes silver without hand polishing. Safe for use on flatware, silverware, and utensils. Can also be used to soak and clean filters from oven hoods.

### Directions

**PRESOAKING:** Mix 2-4 ounces per gallon of warm or hot water into a plastic tray. Make sure product is thoroughly dissolved. Place kitchen ware into solution. Allow to soak for 5-10 minutes prior additional cleaning.

**DETARNISHING:** Place a sheet of aluminum foil covering the bottom of a plastic soak tray. Mix 2-4 ounces of product per gallon of hot water. Make sure product is thoroughly dissolved. Place silverware into solution. Electrolytic action will take place between the aluminum foil and the silverware that will lift off soils and remove the tarnish. Allow to soak for not more than 10-15 minutes. Remove from solution and rinse with clean water and then dry. Do not use the aluminum foil with stainless tableware and utensils. For stainless ware, presoak only.

**OVEN HOOD FILTERS:** Mix 2-4 ounces of product per gallon of hot water into sink. Make sure product is thoroughly dissolved before placing filters into sink. Allow to soak until deposits have softened then remove and rinse. Set aside to dry.

### Technical Data

Color .....	Blue	pH (1% solution).....	10.0-11.0
Scent.....	None	Phosphated .....	Yes
Foam.....	Low-Medium		

**Product Category:** Food Service Specialties

**DOT Shipping Name:** Corrosive Solid, Basic, Inorganic, N.O.S., (Contains Sodium Phosphate, Tribasic), 8, UN 3262, III

### Cautions

Contains sodium phosphate, tribasic. Do not ingest or allow contact with skin or eyes. If ingested: Drink plenty of water and get medical attention immediately. Do not induce vomiting unless instructed by a physician to do so. Never give fluids to an unconscious person. In case of eye contact: If contacts are worn, remove them, then raise eyelids and flush eyes with clear water for 15 minutes making sure to flush under eyelids. Get medical attention immediately. In case of skin contact: Remove contaminated clothing. Flush skin areas with clear water, then wash with a mild soap. If irritation occurs, get medical attention. In case of inhalation: Move victim to fresh air. Get medical advice. Refer to your Material Safety Data Sheet for additional cautions and handling procedures.
