## Liquid Flatware Presoak and Silver Detarnisher

Product Number 4431

### Description

A liquid product designed to presoak and detarnishes at the same time. Helps to soften and solubilize foods soils and allow for proper mechanical cleaning. Safe on all kitchen flatware, silverware, and utensils. Can also be used to soak and clean filters from oven hoods.

### Directions

To presoak flatware, use a shallow plastic tray. For detarnishing, place a piece of aluminum foil to cover bottom surface of soaking tray. Mix 1-2 ounces of product per 2 gallons of warm to hot water. Make sure product has thoroughly dissolved. Place flatware/silverware into tray and allow soaking for several minutes. Remove flatware and rinse before placing into normal dishwashing rack. Wash as usual. Use rubber gloves when handling kitchenware with detergent solution.

To clean stainless filters from oven hoods, mix 2-4 ounces of product per gallon of hot water into sink. Place filters into solution and allow soaking for a time sufficient enough to loosen soils. Remove screens and rinse.

### Technical Data

Color .....	Clear, Green	Phosphated .....	No
Scent.....	N/A	Viscosity .....	Light
Foam.....	Low	Density .....	8.68 pounds/gallon
pH (1% solution) .....	11.4-11.6		

**Product Category:** Food Service Specialties

**DOT Shipping Name:** Corrosive Liquid, Basic, Inorganic, N.O.S., (Contains Potassium Hydroxide), 8, UN3266, II

### Cautions

Contains potassium hydroxide. Do not ingest or allow contact with skin or eyes. If ingested: Drink plenty of water and get medical attention immediately. Do not induce vomiting unless instructed by a physician to do so. Never give fluids to an unconscious person. In case of eye contact: If contacts are worn, remove them, then raise eyelids and flush eyes with clear water for 15 minutes making sure to flush under eyelids. Get medical attention immediately. In case of skin contact: Remove contaminated clothing. Flush skin areas with clear water, then wash with a mild soap. If irritation occurs, get medical attention. In case of inhalation: Move victim to fresh air. Get medical advice. Refer to your Material Safety Data Sheet for additional cautions and handling procedures.
