

Rapid

Delimer/Descaler

Product Number 4518

Description

A powerful, fast acting liquid acid product designed to rid the dish machine of scale and lime formations due to hard water precipitates. This balanced product works quickly to brighten internal surfaces and leave them sparkling. Contains special surfactants that degrease and clean internal surfaces of machine.

Directions

DELIME/DESCALE DISH MACHINE: Drain, flush, and clean out dish machine. Pull screens and flush to clean. Disconnect dispensing equipment to prevent the addition of detergent during descaling operation. Close drain of dish machine. Add 1 ounce of delimer per gallon of water capacity for the dish machine (if unsure, use 1 pint of delimer). Fill machine to normal operating level with hot water. Run machine in manual mode for up to 5 minutes. Check to see if lime scale is being removed. If this is an initial treatment or there is a severe lime problem, increase the amount of delimer being used. Drain dish machine and flush thoroughly with clear water. Fill dish machine and run through a normal operating cycle. Drain and flush again. Engage the dispensing equipment.

This product is not suitable for exterior surfaces of dish machine surfaces or for any other non-dish machine use. This product is best suited for internal circulation within the dish machine. Do not allow product to soak inside dish machine. Contact time should not exceed 5 minutes. Do not allow product to dry on stainless surfaces. Always wear proper gloves, apron and eye protection when using this product.

Technical Data

Color	Clear, Red	pH (1% solution)	2.4-2.6
Scent	Sweet Acidic	Viscosity	Medium
Foam	Low	Density	9.30 lbs./gallon

Product Category: Warewash/Mechanical Washing

DOT Shipping Name: Corrosive Liquid, Acidic, Inorganic, N.O.S., (contains phosphoric acid and muriatic acid), 8, UN3264, II

Cautions

DO NOT STORE NEAR OR USE WITH CHLORINE BLEACH OR PRODUCTS CONTAINING CHLORINE. Contains phosphoric and hydrochloric acid. Causes skin and eye burns and irritation. Do not ingest or allow contact with skin or eyes. **If ingested:** Drink plenty of water and get medical attention immediately. Do not induce vomiting unless instructed by a physician to do so. Never give fluids to an unconscious person. **In case of eye contact:** If contacts are worn, remove and dispose of them, then raise eyelids and flush eyes with clear water for 15 minutes making sure to flush under eyelids. Get medical attention immediately. **In case of skin contact:** Remove contaminated clothing. Flush skin areas with clear water, then wash with a mild soap. If irritation occurs, get medical attention. **In case of inhalation:** Move victim to fresh air. Get medical advice. Refer to your Material Safety Data Sheet for additional cautions and handling procedures.
