

Enviro Champ

Heavy Duty Encapsulated Machine Detergent

Product Code 4522

Description

An innovative new product designed with the environment in mind. Enviro Champ contains no complex Phosphates (STPP) or Nitrilotriacetate (NTA). Enviro Champ rinses quickly and is suited for use with newer, short-cycle dish machines. Provides excellent scale inhibiting properties. Can be used in both low temperature and high temperature dish washing applications. When used in conjunction with Crystal Rinse Aid, you can take comfort that you are minimizing the impact of your chemical products on the 40,000 gallons (150,000 liters) of effluent that a typical commercial dish machine discharges annually.

Directions

Pull the plastic tab on top of jar to remove cover and expose screen surface. Invert canister so that screen surface is pointing downward into dispenser. Do not get product on hands or into eyes. Turn machine on so that water will feed the dispenser unit and dissolve product into the dish washing machine. Water feeding the dispenser unit should not exceed 140°F. Maximum results are obtained when wash temperature is maintained at 145-155°F. If water temperatures are too low, fat soils are not softened and cleaning efficiency will decrease. If water is too hot, soils may become flash dried to the kitchen ware, thus making it more difficult to remove. This product is highly alkaline. Do not use on aluminum, silver plate, or pewter.

Technical Data

Form	Powder	Rinsability.....	Excellent
Color	White	pH (1% solution)	12.3-13.3
Scent.....	Bland		

Product Category: Warewash/Mechanical Washing

DOT Shipping Information: Corrosive Solid, Basic, Inorganic, N.O.S., (Contains Sodium Hydroxide), 8, UN3262, II

Cautions

Contains sodium hydroxide. Causes burns to skin and eyes. Do not ingest or allow contact with skin or eyes. **If ingested:** Drink plenty of water and get medical attention immediately. Do not induce vomiting unless instructed by a physician to do so. Never give fluids to an unconscious person. **In case of eye contact:** If contacts are worn, remove and dispose of them, then raise eyelids and flush eyes with clear water for 15 minutes making sure to flush under eyelids. Get medical attention immediately. **In case of skin contact:** Remove contaminated clothing. Flush skin areas with clear water, then wash with a mild soap. If irritation occurs, get medical attention. **In case of inhalation:** Move victim to fresh air. Get medical advice. Refer to your Safety Data Sheet for additional cautions and handling procedures.
