

EcoFirst Solid Mechanical Detergent

Environmentally Preferred Solid Mechanical Detergent

Product Number 4583

Description

This product utilizes the latest ingredients that are less hazardous to environment without sacrificing performance. This solid contains no hydroxides, phosphates (STPP), chlorine or nitrilotriacetate (NTA). Solid Mechanical Detergent rinses quickly and is suited for use with newer, short-cycle dish machines. Provides excellent scale inhibiting properties. Can be used in both low temperature and high temperature dish washing applications. Safe for use on all surfaces! Approved by the EPA's Safer Choice program.

Directions

Remove cap from the container and invert canister so that open surface is pointing downward into the bowl dispenser. Do not get product on hands or into eyes. Turn machine on so that water will feed the dispenser unit and dissolve product into the dish washing machine. For consistent feeding of product, it is suggested that cold or warm water be used to dissolve product and suggested water feed temperature not to exceed 140°F.

Dish machine wash tank water will yield maximum results when the wash temperature is maintained at 145-155°F. If the water temperatures are too low, fat soils are not softened and cleaning efficiency will decrease. If water is too hot, soils may become flash dried to the kitchenware, thus making it more difficult to remove.

Technical Data

Form	Solid	Biodegradable	Yes
Color	White	Rinsability	Excellent
Scent	Bland	pH (1% solution)	<11.5

Product Category: Warewash/Mechanical Washing

DOT Shipping Information: Compound, Cleaning, Dry

Cautions

Contains alkaline materials. Minimize contact with skin and eyes. Do not ingest or allow contact with skin or eyes. **If ingested:** Drink plenty of water and get medical attention immediately. Do not induce vomiting unless instructed by a physician to do so. Never give fluids to an unconscious person. **In case of eye contact:** If contacts are worn, remove them, then raise eyelids and flush eyes with clear water for 15 minutes making sure to flush under eyelids. Get medical attention immediately. **In case of skin contact:** Remove contaminated clothing. Flush skin areas with clear water, then wash with a mild soap. If irritation occurs, get medical attention. **In case of inhalation:** Move victim to fresh air. Get medical advice. Refer to your Material Safety Data Sheet for additional cautions and handling procedures.
