

Foaming Emulsifier

High Active Cleaner for Food Plants/Supermarkets

Product Number 4586

Description

The most cleaning power per drop! Less than 2 containers of this highly concentrated, highly active product can replace a 5 gallon pail. Product can be used in hard and soft water. Perfect for use in meat markets, delis, food plants, kitchen and supermarket applications. Helps to minimize your delivery and inventory costs as well as storage space. Quickly emulsifies greasy soils for easy removal. Provides long lasting suds and cleaning power. Rinses quickly and easily from surfaces. The product is environmentally preferred as it does not contain Phosphates or NTA!

Directions

Designed only for use in the ConQuest system. Our easy to handle container is designed to eliminate the difficulties associated with the handling of heavy pails and drums.

Slide the lever to "Open" on the ConQuest rack. Remove empty container from rack and dispose of properly. Secure the desired replacement container from storage. Remove shipping cap from container. Place container into a properly marked ConQuest rack, making sure that product is placed into the correct slot. Push gently so that the product container engages the top portion of rack and that it will not move any further. Slide lever to "Close". Product is now ready to dispense.

Your service representative will set the concentration to provide excellent results. Typical usage is .15-.25 per gallon of water/wash solution.
