

Q-San

Concentrated Quat Sanitizer

Product Number 4604

Description

A highly concentrated quat sanitizer for use on freshly cleaned food contact surfaces. Perfect for fixed cost accounts as it delivers exceptional results at low usage. Helps to minimize your delivery and inventory costs as well as storage space.

Directions

Designed only for use in the ConQuest system. Our easy to handle container is designed to eliminate the difficulties associated with the handling of heavy pails and drums.

Slide the lever to "Open" on the ConQuest rack. Remove empty container from rack and dispose of properly. Secure the desired replacement container from storage. Remove shipping cap from container. Place container into a properly marked ConQuest rack, making sure that product is placed into the correct slot. Push gently so that the product container engages the top portion of rack and that it will not move any further. Slide lever to "Close". Product is now ready to dispense.

Your service representative will set the concentration to provide excellent results. Typical usage is 1 ounce per 5.5 gallons of water for 200ppm.

Technical Data

Form.....	Liquid	pH (1% solution).....	7.5-8.5
Color	Clear	Viscosity	Light
Odor	Bland	Density	8.21 lbs./gallon
