Institutional Built Laundry Break Concentrate

Product Number 4095

Description

An alkali break solution used to increase the performance of liquid detergents. Designed for difficult soil and water conditions. Minimizes the effects of hard water and prevents graying of washed goods. Brightens whites. Conditions the water and helps minimize the effects of rust and iron in the water supply. Allows for quick and easy removal of soils in the "suds" cycle. This highly concentrated formula is designed for injection systems in institutional and industrial laundries.

Directions

Add product to a separate break cycle or add with detergents in the wash cycle. Normal usage is 4-6 ounces per 50 pounds of linen.
