## Deep Fat Fryer Cleaner

Product Number 4203

### Description

This highly alkaline powder goes to work quickly to remove stubborn soils that form on the inside of deep fat fryer cleaners. Contains water conditioners and surfactants that allow for fast penetration. Helps rid fryers of unpleasant odors that can affect the taste of fried foods. By keeping fryer clean, less energy is needed to keep oil hot since the heating elements are not covered with dried soils.

### Directions

Due to the strong alkali detergents in this product, protective eyewear, rubber gloves and an apron are recommended. Deep fat fryer should be completely drained of all remaining grease. Scrape out any excess soils.

Refill fryer with warm to hot water. Depending upon amount of soil, dissolve 2-5 ounces of product per gallon of water. Turn heat on and bring to a boil. Turn heat off and allow to soak until cool, then drain. Scrub with an abrasive pad to loosen and remove stubborn soils. Be sure to clean around heating elements. Refill fryer and add one cup of vinegar, then drain. Flush inside again with clear water.

### Technical Data

Form .....	Powder	Solubility.....	Rapid
Color .....	White	pH (1% solution) .....	12.2-12.4
Scent.....	N/A		

**Product Category:** Food Service Specialties

**DOT Shipping Name:** Corrosive Solid, Basic, Inorganic, N.O.S., (Contains Sodium Hydroxide), 8, UN3262, II

#### DANGER

**HAZARDS:** Causes severe skin burns and eye damage. May cause respiratory irritation.

**PRECAUTIONS:** Avoid breathing dust, vapors or spray. Wash hands thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves, protective clothing and eye protection.

**RESPONSE/FIRST AID:** Have the product or label with you when calling poison control center or physician. **IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting. Immediately call a POISON CENTER or doctor/physician. **IF ON SKIN (or hair):** Remove all contaminated clothing. Rinse skin with water/shower. If skin irritation occurs, get medical advice/attention. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison control center or physician for treatment advice. **IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing.

**STORAGE & DISPOSAL:** Store locked up. Dispose of contents/container to trash after rinsing.
