

OptiBlend #3

Air Freshener/Fresh Breeze

Product Number 4217

Description

A highly concentrated deodorizing formulation for controlling objectionable odors caused by the decomposition of organic compounds and waste in industrial and commercial facilities. Use in food processing plants (non-processing areas), rendering plants, waste treatment, hospitals, institutions, animal areas, garbage dumps, exterior areas, and all other areas requiring a safe method of removing objectionable odors. Can be used undiluted for long-lasting performance or may be diluted for many general purposes. Offers cost savings over low activity, short term deodorizers and does not affect bacterial action in waste water.

Directions

Add Air Freshener to water at a rate of 1 part Air Freshener to 16 parts water for direct application to waste collection containers, garbage trucks, rendering plants, lift stations, drains, pits, sewage overflow, etc. Treat effluent by metering Air Freshener at 1 ounce per 10 gallons. Use Air Fresh in dryer/cooker exhaust air scrubbing system by metering into system at a rate of 1 ounce per 5 gallons.

BATHROOMS: 1 to 2 ounces per gallon added to normal cleaning solution.

CLARIFICATION SYSTEMS: Drip feed at 1 to 2 ppm.

DRAINS: Pour concentrate into drain, or drip feed.

ELEVATORS: 1 to 2 ounces per gallon added to normal cleaning solution.

EXERCISE ROOMS: 1:50 with water and apply with a plastic sprayer.

FLOORS: 1 to 2 ounces per gallon added to normal cleaning solution.

LOCKER ROOMS/SHOWER STALLS: 1 to 2 ounces per gallon added to normal cleaning solution.

PATIENT ROOMS: 1:100 with water and apply with a plastic sprayer.

Technical Data

Form.....	Liquid	pH (1% solution).....	5.06 – 5.26
Color.....	Dark Green	Viscosity.....	Medium
Scent.....	Pleasant	Density.....	8.21 lbs./gallon
Solubility.....	Complete in water		

Product Category: General Purpose Cleaners/Janitorial

DOT Shipping Name: Compound, Cleaning, Liquid

WARNING
