Enviro Champ

Heavy Duty Encapsulated Machine Detergent

Product Code 4522

Description
An innovative new product designed with the environment in mind. Enviro Champ contains no complex Phosphates (STPP) or Nitrilotriacetate (NTA). Enviro Champ rinses quickly and is suited for use with newer, short-cycle dish machines. Provides excellent scale inhibiting properties. Can be used in both low temperature and high temperature dish washing applications. When used in conjunction with Crystal Rinse Aid, you can take comfort that you are minimizing the impact of your chemical products on the 40,000 gallons (150,000 liters) of effluent that a typical commercial dish machine discharges annually.

Directions
Pull the plastic tab on top of jar to remove cover and expose screen surface. Invert canister so that screen surface is pointing downward into dispenser. Do not get product on hands or into eyes. Turn machine on so that water will feed the dispenser unit and dissolve product into the dish washing machine. Water feeding the dispenser unit should not exceed 140°F. Maximum results are obtained when wash temperature is maintained at 145-155°F. If water temperatures are too low, fat soils are not softened and cleaning efficiency will decrease. If water is too hot, soils may become flash dried to the kitchen ware, thus making it more difficult to remove. This product is highly alkaline. Do not use on aluminum, silver plate, or pewter.

Technical Data
Form ..................................................... Powder  Rinsability .............................................. Excellent
Color ..................................................... White  pH (1% solution) ........................................ 12.3-13.3
Scent ..................................................... Bland

Product Category: Warewash/Mechanical Washing
DOT Shipping Information: Corrosive Solid, Basic, Inorganic, N.O.S., (Contains Sodium Hydroxide), 8, UN3262, II

DANGER
HAZARDS: Causes serious eye irritation. Causes severe skin burns and eye damage.
PRECAUTIONS: Wash hands thoroughly after handling. Wear eye and face protection when handling. Wear protective gloves. Do not breathe dust, fumes, mist or spray.

RESPONSE/FIRST AID: Have product container, label or SDS with you when calling poison control center or physician. IF SWALLOWED: Rinse mouth. Immediately call a POISON CENTER or doctor/physician. IF ON SKIN (or hair): Remove/take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison control center or physician for treatment advice. IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Seek medical advice if feeling unwell.

STORAGE & DISPOSAL: Store locked up. Dispose of contents/container to trash after rinsing container.
