

Pinnacle

Heavy Duty Chlorinated Mechanical Detergent

Product Code 4593

Description

A chlorinated, highly alkaline powdered designed for the removal of tough food soils. Specially formulated to provide unequaled results in hard water. Contains low foaming surfactants as well as its own rinse additive to assure one pass cleaning without spots. Simply pull the plastic tip to expose the screen cap and place into dispenser. No mess, no hassles, no handling of tubes, and it takes up less space. Due to the strong nature of this product, it should not be used on soft metals, aluminum, or pewter.

Directions

Pull the plastic tab on top of jar to expose screen. Turn upside down and place into dispensing bowl. Be careful not to get product on hands or into eyes. Scrape and flush gross soils from kitchenware prior to machine washing. Machine wash water should be changed when noticeably dirty. Set detergent feeder for recommended concentration. See your service technician for proper usage amount. Wash temperature should be maintained at 140F-150F. When kitchenware is removed from machine, set aside to air dry. When dry, place into a sanitary storage area. This product is highly alkaline. Do not use on aluminum silver plate, or pewter.

Technical Data

Form	Powder	Rinsability.....	Excellent
Color	White	pH (1% solution)	12.3-13.3
Scent.....	Slight Chlorine		

Product Category: Warewash/Mechanical Washing

DOT Shipping Information: Corrosive Solid, Basic, Inorganic, N.O.S., (Contains Sodium Hydroxide), 8, UN3262, II
