Crystal Rinse Additive

Environmentally Preferred Rinse Aid/Drying Agent

Product Code 4619

Description

This product utilizes the latest ingredients that are less hazardous to environment without sacrificing performance. Crystal Rinse Additive provides excellent sheeting action on machine washed kitchenware. Glasses and plates dry quickly without spots. Safe for use on all surfaces! EPA Safer Choice certified.

Directions

For automatic injection, feed directly from shipping container. Usage will average 1 – 2 ml. per gallon (.25 - .50 ml per liter) of rinse water. Crystal Rinse Additive can be used for both low temperature and high temperature rinse applications. Minimum rinse temperature should exceed 120°F (50°C). Crystal Rinse Additive is compatible for use in low temp applications where sodium hypochlorite is used for sanitizing.
